Hope for the Warriors: History & Mission

Time and experience have demonstrated that the wounded warriors, their spouses and children, possess an inner strength that allows them to carry themselves with pride and dignity despite the toll physical and emotional wounds afflict.

Yet, despite a heroic outlook, physical and emotional wounds create unanticipated short and long-term needs for the service member and their families. These realizations became the core of Hope For The Warriors® impassioned drive to build hope beyond recovery.

Today, our mission is a promise that the sacrifices of the wounded across military service branches and throughout the nation will not be forgotten, nor their needs unmet. Our many programs have been implemented to fulfill this promise.

Whether realizing a dream to sail, ride a bike again, or own a home adapted to specialized needs, Hope For The Warriors® honors the goals and desires of wounded service members and their families.
