Biography

Lindsay Weissbratten is the Chief Human Resource Officer at Siemens Government Technologies (SGT), a leading integrator of Siemens’ innovative products, technologies and services for programs and requirements at federal government agencies and departments in the areas of energy generation, transmission, distribution and efficiency, infrastructure modernization, industrial applications and integrated electric power solutions for the air, land and sea domains.

With more than two decades of experience developing programs and leading effective teams in the nonprofit, commercial software, technology and aerospace & defense industries, Ms. Weissbratten leads the central people strategy for SGT in a rapidly evolving federal marketplace.

Ms. Weissbratten spent a decade at General Dynamics (GD), where she led new talent acquisition practices tied to rapidly evolving business needs, and developed best-in-class career and organizational development programs that helped her spearhead the integration of talent programming for a diverse commercial product organization. While at GD, she was a key member of the leadership team that stood up Fidelis Cybersecurity Solutions – serving as the Vice President of People and Culture at a dynamic new business enterprise – and applied critical surge staffing leadership and integration strategies during a period of rapid acquisition and global expansion. Prior to her current role, she was responsible for the human capital strategy at the Institute for Building Technology & Safety.

A career learner, Ms. Weissbratten earned her bachelor’s degree in Sociology from James Madison University and a master’s in Organizational Sciences from George Washington University. During her academic career, she has studied abroad in England, France, Italy, Spain, and the Dominican Republic.
