Biography

Tina Dolph is president and CEO of Siemens Government Technologies (SGT), Inc., a leading integrator of Siemens’ innovative products, technologies, software and services to address U.S. government customer imperatives in the areas of energy generation and resiliency, smart infrastructure modernization, and software-driven optimization of maintenance, sustainment and production activities across government and its supplier base.

An accomplished executive leader with more than two decades of government industry experience, Ms. Dolph began her career with GE Aerospace in the early 1990's. She has held wide-ranging operational and functional roles at leading federal contractors including Lockheed Martin, PAE and ASRC Federal. Most recently, she served as Chief Strategy Officer at CRDF Global, a non-profit focused on promoting global safety, security and stability through science and innovation.

Known as a collaborative leader, Ms. Dolph has often led large, diverse teams through complex transitions. She was instrumental in Lockheed Martin’s integration of and subsequent divestiture of PAE, Inc., where she served in executive leadership positions culminating as Executive Vice President, Company Operations for a $2 billion enterprise. During her tenure at PAE, she also served as COO and led the Global Stability and Development Division where she had full profit and loss responsibility for the $600 million business unit with 3,000 employees serving the Departments of State and Defense, the United Nations and commercial clients across the globe. She led the integration of the Applied Technologies Division of CSC with PAE, which represented revenue of over $400 million and an employee population of over 5,000, with 38 collective bargaining agreements across the U.S.

Ms. Dolph has earned recognition for her achievements in the government marketplace, having been named to Washington Executive’s “Top 25 Execs to Watch in 2019” and is a two-time recipient of the Wash100 award from Executive Mosaic. She serves on the Northern Virginia Technology Council Board of Directors.

Active in community service initiatives, Ms. Dolph has served as the President of the Battlefield High School Choral Booster Club since 2015.

Ms. Dolph earned her B.S. in Business Administration from Le Moyne College and has an MBA from Rensselaer Polytechnic Institute.
