Managed Service Help Desk: 132-8

The Siemens Managed Service Help Desk Offering provides the following support services directly to a customer's end users:

User Assistance - User requests on how to use specific technology features/functions, etc. An example of UA is answering a question on how to use a telephone feature, such as "how to set up a conference call?".

Remote Software MAC Support - An example of SWMAC is adding an extension to a PBX system; or adding a profile to a voicemail system; or creating a voicemail distribution list. Software MAC will be performed for all Siemens equipment as appropriate, Siemens will look to Vendor Coordinate our subcontractor for all Software MAC support of Non-Siemens equipment

Vendor Coordination Service - An example of VC-S is coordinating service for a station within a PBX system

Vendor Coordination MAC -An example of VC-MAC is an installation of a new telephone

GSA Price

Per User Price (Minimum of 1000 users per Customer). Assumes 2 transactions per user per year at \$5.78 per user per month. Excess transactions will be billed at \$35.64 per transaction.	\$5.78
--	--------

Note: A user is defined as an Equipped Digital Port (actual device on the end) or an Active Analog Port (configured in the switch)

Excess Transactions (price shown per transaction)	\$35.64
