Siemens ranks #79 in Washington Technology's Top 100 Government Contractors list for 2010, representing a jump from last year's #90 position. Siemens USA, combined Siemens Government Services Inc. (SGS) - the specialized federal division of Siemens, continue to see enhanced year-over-year growth within the federal marketplace.

The Top 100 government contractors reported by Washington Technology represent nearly \$130 billion in prime contracts last year. All companies are ranked upon their sales related to IT products and services, system integration, telecommunications, professional services, and engineering services.
