

Desigo® Fire Safety

Every Element of Fire Protection in One System

When it comes to protecting what matters most, how you protect it matters. Desigo Fire Safety provides an integrated, all-encompassing fire protection solution that seamlessly integrates advanced technology, expert consulting, and application know-how. Designed to deliver optimal safety and peace of mind, Desigo Fire Safety ensures comprehensive protection for every element of your facility. Discover how our integrated approach can safeguard your people and assets with industry-best precision and reliability.

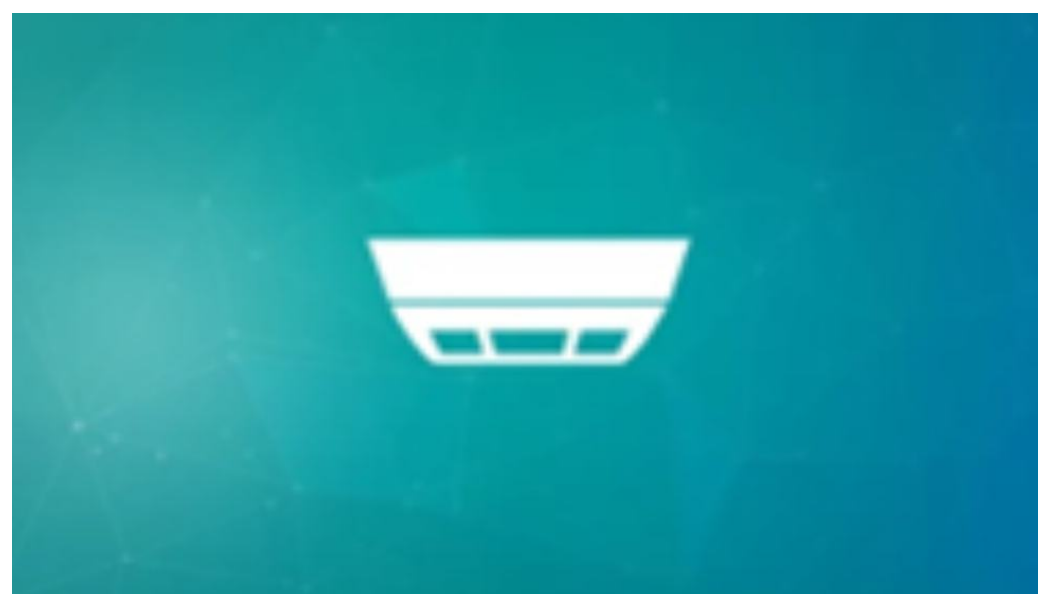

Protecting lives, assets, and business continuity

Building on the comprehensive protection offered by Desigo Fire Safety, our solutions address a wide range of needs to ensure safety and continuity. From safeguarding employees and building operations to maximizing building utilization and ensuring legal compliance, we provide peace of mind and certainty. With Desigo Fire Safety, you can focus on what matters most—being creative, productive, and successful—knowing that lives, assets, and business continuity are secure in the event of a fire incident.

Our portfolio offers versatile solutions tailored for various environments, spanning from small retail stores to marine vessels to complex university campuses. The flexible design of Desigo Fire Safety ensures that your facility receives the right life safety measures.

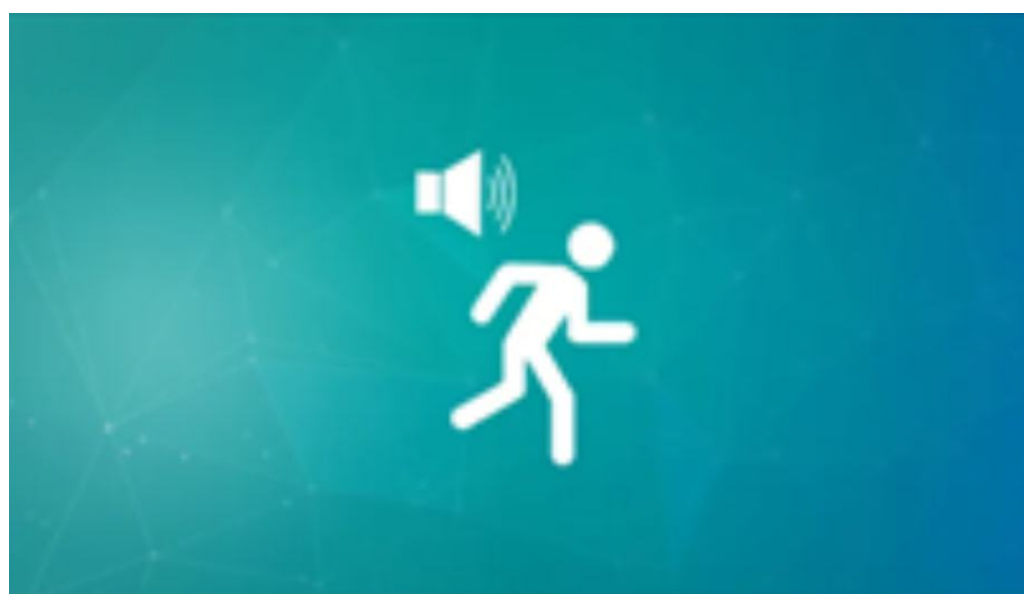

Every element of fire protection in one system

With its comprehensive portfolio of products, systems, and life-cycle services, Desigo Fire Safety protects what matters to you.

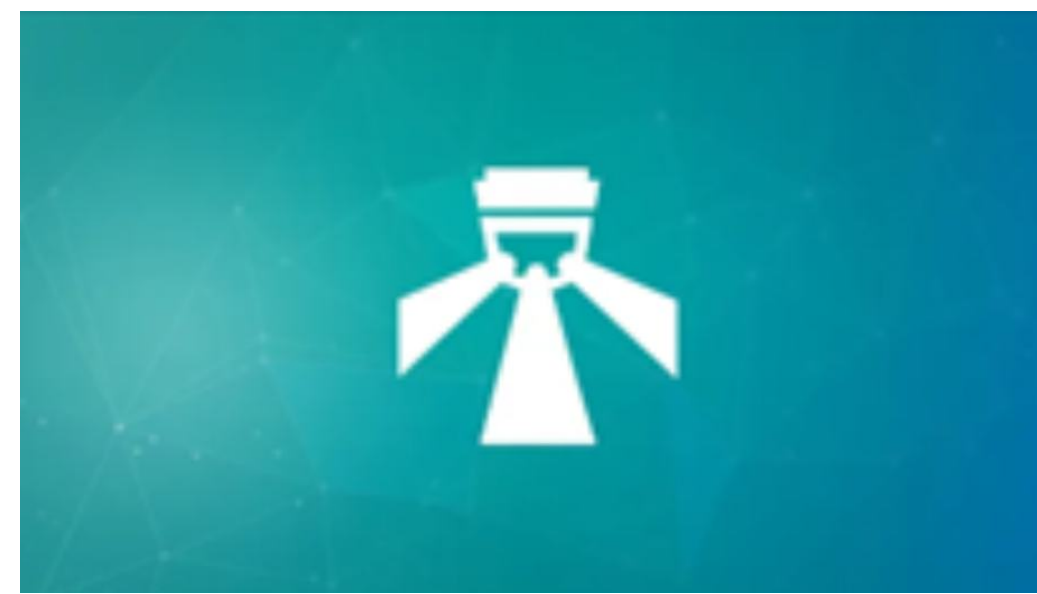

Detection

At the first sign of a fire hazard, our system detects it quickly and reliably, immediately initiating appropriate actions. Our detection technology is designed for a wide range of applications and can easily distinguish between real and deceptive phenomena. We help you exceed regulatory requirements while minimizing unnecessary disruptions in your building.

Notification

Our dual-sense alarm system using both acoustic and visual signals to ensure everyone notices when an alarm is triggered. When activated, our solutions facilitate quick and orderly evacuations along safe, smoke-free routes to designated safety areas.

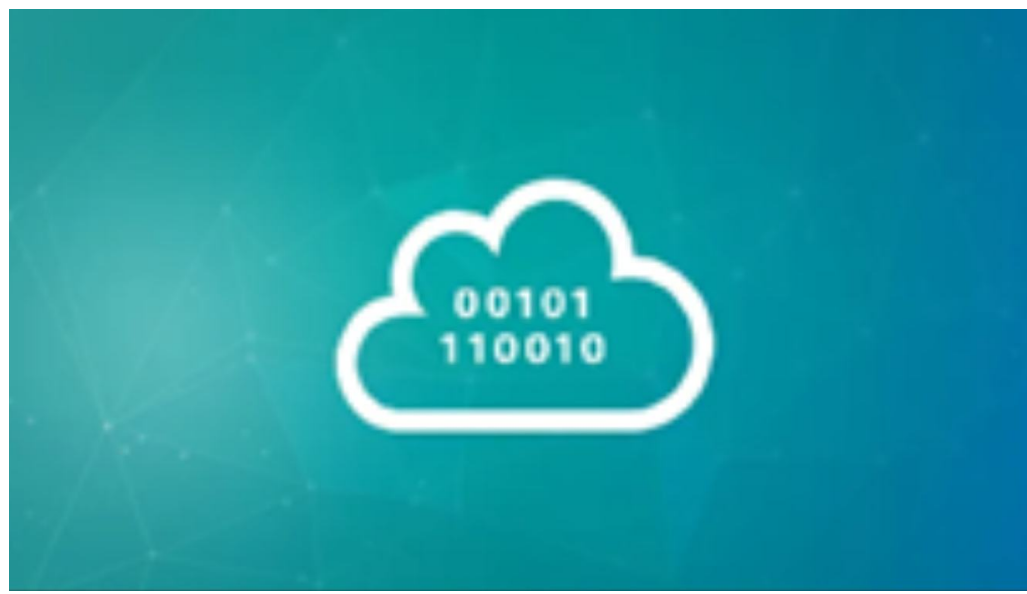

Extinguishing

In the event of a fire, every second counts. It's crucial to react swiftly and effectively to minimize damage to equipment and property. That's why having a reliable, tailored solution is essential. Our advanced extinguishing portfolio includes systems with natural or chemical extinguishing agents and gas-water combined systems, ensuring a comprehensive approach to fire control.

Management Station

We provide a single point of control to monitor and operate your building's fire protection systems. Our management station is tailored to your unique needs and designed to scale. Built on an open platform and with modular design, it ensures seamless integration with existing systems and maximal flexibility.

Cloud

Linking your Desigo fire protection system to the cloud provides visibility across multiple buildings, accessible from anywhere. Incidents are communicated instantly, enabling proactive protection and increasing safety. This enhanced responsiveness also boosts operational efficiency and ensures even greater security.

Services

Maintaining the integrity of your fire protection system is essential. Our comprehensive suite of services ensures your system is well-maintained throughout its entire lifecycle. We offer tailored solutions for modernizing and expanding your system to meet today's standards and prepare for future requirements.

Desigo Fire Safety portfolio

Whether you are protecting a small retail store, commercial building, marine vessel, or complex university campus, our Desigo Fire Safety portfolio offers a solution for your facility.

Desigo® Fire Safety 50pt System

An ideal fire safety solution for small- to mid-sized facilities, combining innovation and power in a flexible, cost-effective system.

Desigo® Fire Safety 252/504pt System

Meet the needs of any mid- to large-size facility with an integrated fire solution with voice control and a clear migration path from legacy systems.

Desigo® Fire Safety Modular

A scalable and customizable design to meet your customers' evolving needs and build the most cost-effective system for any large and complex facility.

Ready to start your next project?

In today's fast-paced world, ensuring the safety and security of your facility is more important than ever. Desigo Fire Safety offers an unparalleled turnkey solution that addresses every aspect of fire protection. With our advanced detection systems, reliable notification and evacuation procedures, and cutting-edge extinguishing technologies, you can rest assured that your building and its occupants are in safe hands.
